Publicity

The Association is writing a little book on the occasion of the 100 year anniversary next year.

Academic/Conferences

The leading persons had the last conference in October 2015 in Herrenberg. Themes were the young people as new member, the schools of the sisterhoods, and that we are dependent of both. Other topics were the diaconal education of all members and planning of the 100th jubilee of the association in 2016.

Other

In all institutions of the sisterhoods increases the economic pressure. The role of the communities in the companies is to redefine. Are they a tradition and a cost factor or important for the diaconal profile and a part of the companies?
